Index to Volume 30

Subject Index

Abdominal complaints, measuring impact of, 244
Acquired immune deficiency syndrome
  concern about among low-risk heterosexuals, 276
  methodological lessons for surveys of persons with, 1059
  physician attitudes toward patients with, 199
Activities of daily living
  efficacy of rehabilitation for elderly primary health care patients, 1004
  functional assessment of, MS96
Activities of Daily Vision Scale, development of, 1111
Acute Physiology and Chronic Health Evaluation (APACHE II), 347
Acute Physiology and Chronic Health Evaluation (APACHE)-L, for inpatient medical care, 445
Acute Physiology Score, 347
Administrative data base, for CABG surgery, 892
Adverse events
  occurrence rate of and hospital and patient characteristics, 615
  postoperative, 753
Affective behavior, of physicians, 283
AIDS. *See* Acquired immune deficiency syndrome
Alcoholism
  discrete choice model of treatment location for, 1097
  short-term treatment costs for, 795
Allocative efficiency, 677
Alzheimer's disease, in nursing home residents, 105
Ambulatory care
  benefits and obstacles of health status assessment in, MS42
  patients as reliable reporters of, 400
Ambulatory testing, for capitation and fee-for-service patients, 252
American Medical International (AMI) hospitals, characteristics of, 360
Antidepressant treatment, adequacy and duration of in primary care, 67
Appropriateness ratings, for diagnostic upper GI endoscopy using two different approaches, 1016
Area-level variation, in Medicare home health service use, 43
Arthritis Impact Measurement Scale, measurement sensitivity of, 917
Atrial fibrillation, comparison of Quality of Well-being scale and Functional Status Index in patients with, 958
Attitudes, physician, toward HIV-infected patient, 199
Back surgery, detecting rate variations in, 484
Beds, cash flow per, 360
Behavior, family violence and evaluation of, MS150
Benign prostatic hypertrophy, reoperation and mortality after surgical treatment of, 117
Blood pressure, home monitoring of, 855
Blood product utilization, variation in decision to transfuse and, 1083
Brain drain, in area of civil disturbances, 208
Breast cancer, mortality due to and mammography utilization, 320
Canadian doctors' strike, duration and intensity of, 737
Cancer, invasive cervical, effect of CLIA '88 on incidence of, 1067
Capitation, versus fee-for-service, 252
Cardiac Surgery Reporting System, clinical risk factors in, 892
Caregivers, paid and unpaid help for disabled and frail elderly by, 149
Carotid endarterectomy, appropriateness of, 565
Case-mix models
  of nursing home residents suffering from cognitive impairment, 105
  for VA hospital-based home care, 1
Cervical neoplasms, effect of CLIA '88 on incidence of, 1067
Cesarean section
  economic and noneconomic aspects of in New York state, 529
  variations in use of for dystocia, 126
Children
  low-income, encouraging preventive services for, 766
  physician services use by and characteristics of, 30
Chinese population, Mental Health Inventory for, 659
Chronic obstructive pulmonary disease
  health status measurement of patients with, MS125
  medical technology in treatment of, 718
Clinical care, benefits and obstacles of health status assessment in, MS50
Clinical data base, for CABG surgery, 892
Clinical examination, on HIV-seropositive patients, 199
Clinical indications, and appropriateness of care, 565
Clinical Laboratory Improvement Amendments of 1988 (CLIA '88), effect of on incidence of invasive cervical cancer, 1067
Clinical practice
  applications of health status assessment measure in, MS1
  improving and expanding health status measures in, MS176, MS196, MS198, MS202, MS210
  moral implications of quality of life assessment in, MS166
  motivation for health status assessment measures in, MS15
  opportunities for applying health status assessment measures in, MS219, MS231
  recent developments

and future issues in use of health status assessment measures in, MS23
use of health status assessment in, MS205
Clinical research, motivation for health status assessment measures in, MS15
Clinical trajectory, utility of in quality of hospital care assessment, 428
Cognitive impairment, in nursing home residents, 105
Communication, physician-patient, 976
Community, role of in hospital closures, 174
Community practice, health status measures in, MS57
Commuting patterns, and health resources in nonmetropolitan counties, 1154
Comorbidity
in choice of alcoholism treatment location, 1097
and cost of treatment for alcoholism, 795
Computer health status measure, MS74
Computerized Severity Index (CSI), utility of, 428
Conflict Tactics Scale, MS150
Consensus methods, in determining resource-based relative values, NS28
Consultation
analyzing communication in, 976
effects of on over-the-counter medication purchasing decisions, 989
Consumer satisfaction, with hospital discharge plans, 262
Continuity of care, and adherence to recommended screening flexible sigmoidoscopy, 1029
Contractual arrangements, between HMOs and primary care physicians, 136
Coronary artery bypass graft (CABG) surgery, clinical versus administrative data bases for, 892
Cost-benefit analysis of health care and medical technology, 231
of home blood pressure monitoring, 855
Cost containment, 282
utilization review programs in, 1043
Cost-effectiveness of health care and medical technology, 231
of influenza vaccination program, 503
Costs. *See also* Expenditures
analysis of for health care and medical technology, 231
effect of home blood pressure monitoring on, 855
impact of psychiatric consultation letter on for patients with somatization disorder, 811
inequality of for healthy, nonelderly population, 908
for physician services, 630
of practice, incorporating into Resource-Based Relative Value Scale, NS50
versus quality of care, 677
of renal dialysis under Medicare, 879
Resource-Based Relative Value Scale impact on, NS61
of short-term alcoholism treatment, 795
of societal violence, 453
Cross-cultural comparison, of physician behavior, 283
Current Procedural Terminology billing codes, NS13
Dartmouth COOP Charts, validity and relative precision of, MS253
Data bases
clinical versus administrative for CABG surgery, 892
merged, for VA and Medicare hospitals, 377
Data Envelopment Analysis, 677
Decisionmaking, on transfusion, 1083
Delphi multiple-round ratings method, NS28
Dementia, in nursing home residents, 105
Depression
measuring outcomes of care for, MS266
treatment of in primary care, 67
Diabetes mellitus, ongoing health status assessment in patients with, MS112
Diagnosis, stage of, mammography utilization and, 320
Diagnosis-related groups, APACHE-L and, 445
Dialysis
health status measures for, MS136
Medicare cost of, 879
Disabled elderly, paid and unpaid caregiving for, 149
Discharge plans, patient and family satisfaction with, 262
DRGs. *See* Diagnosis-related groups
Drugs. *See also* Medications
prescribing of for elderly, impact of pharmacists' consultation on, 646
self-reporting of abuse of versus medical record documentation of in women, 965
verbal consultation regarding, 159
Duke University Center Health Profile, 471
Dystocia, variations in use of cesarean delivery for, 126
Early intervention, for elderly primary health care patients, 1004
Economic analysis, in randomized control trials of medical technology, 231
Efficiency, of hospitals, 781
Elderly
disabled and frail, paid and unpaid caregiving for, 149
efficacy of rehabilitation of after short-stay hospital treatment, 1004
falling, health status, and use of health services in, 587
hospital utilization in and outcomes, 377
impact of clinical pharmacists' consultations on drug prescribing for, 646
near, insurance among, 598
Emergency room, use of by HIV-infected patients, 17
Endoscopy, appropriateness of for upper GI diagnosis, 1016
EPIC Healthcare Group, 360
Epilepsy, health-related quality of life test for surgical evaluation, 299
Epilepsy Surgery Inventory (ESI)-55, 299
Evaluation services, predicting work of, NS13
Expenditures. *See also* Costs
impact of psychiatric consultation letter on for patients with somatization disorder, 811
inequality of for healthy, nonelderly population, 908
Failure rate, hospital and patient characteristics and, 615
Falls, use of health services by elderly for, 587
Family
satisfaction of with discharge plans, 262
violence in and

evaluation of behavioral concerns in pediatric primary care, MS150
Family practice setting, measuring impact of sickness in patients with nonspecific abdominal complaints in, 244
Fee-for-service plans versus capitation, 252
preferred provider option in, 412
Fee schedules
and evaluation and management services, NS13
for physician services, 822
Financing plan, public-private long-term care, 699
Follow-up, among women with abnormal Pap smears, 216
Functional health status measures, validity of, MS96
Functional respiratory impairment, health status assessment with, MS125
Functional status assessment, MS85
condition-specific and generic, after total knee replacement, MS240
Functional Status Index, in patients with atrial fibrillation, 958
Functional Status Questionnaire, measurement sensitivity of, 917
Gastrointestinal endoscopy, appropriateness ratings for two approaches in, 1016
General practitioner, uncertainty, risk preference, and use of laboratory tests by, 846
Global-judgment assessment, of appropriateness of care, 565
Group judgment, in determining resource-based relative values, NS28
Head injuries, impact of Texas motorcycle helmet law on, 832
Health care
appraisal of alternative methods for surveys of, 950
appropriateness of, 514, 529, 565, 646, 1016
inequality of expenditures for in healthy, nonelderly population, 908
quality of, 400
resources and commuting patterns in nonmetropolitan counties of the United States, 1154
source of, and use of cesarean delivery for dystocia, 126
utilization of, 1043
Health Care Cost Containment (review), 282
Health care services. *See also* Home health services
cost versus quality of, 677
effect of home blood pressure monitoring on, 855
effects of psychological distress and well-being on use of, 541
frequency of performance of, NS40
randomized control trials of of cost effectiveness of, 231
received by persons with AIDS, 1059
surveys of sources of, 950
use of after falling by elderly, 587
use of among insured and uninsured families, 941
utilization of, variation in among HIV-infected patients, 17
work of evaluation and management services in, NS13
Health insurance
capitation versus fee-for-service plans, 252
dynamics of among near elderly, 598
public-private long-term care plan for, 699
use of services in families with and without, 941
utilization review programs in cost containment for, 1043
Health maintenance organizations
contractual arrangements between primary care physicians and, 136
marketing of and selection bias, 329
use of cesarean delivery for dystocia in, 126
Health status
automated questionnaire to define, MS74
development of measures for, MS176, MS196, MS198, MS202, MS210
identification of dimensions of in working-age population, 392
indexes of, MS50
measurement of visual function in, 1111
SF-36 scales for, 473, 917
and use of health services in elderly, 587
and use of services among insured and uninsured families, 941
Health status assessment
after total knee replacement, MS240
applications of measures of in clinical practice, MS1
benefits and obstacles of in ambulatory settings, MS42
benefits and obstacles of in clinical settings, MS50
forces motivating use of in clinical settings and related clinical research, MS15
implementation strategies for, MS187
instrumental activities of daily living measures in, MS96
of non-oxygen-dependent chronic obstructive pulmonary disease patients, MS125
ongoing, in patients with diabetes mellitus, MS112
opportunities for application of in clinical settings, MS219, MS231
patient-based, in outpatient dialysis, MS136
psychometric, MS274
quality of life in, MS166
recent developments and future issues in, MS23
reflections and predictions for, MS283
self-report versus medical record functional, MS85
short and longer instruments for, comparative measurement sensitivity of, 917
strategies for improving and expanding application of in clinical settings, MS176, MS196, MS198, MS202, MS210
Third Conference on Advances in, MS1
use of automated questionnaire in, MS74
use of in clinical settings, MS205
using measures of in-hospital setting, MS57
validity and relative precision of MOS scales and Dartmouth COOP Charts in, MS253
Health utility measures, psychometric health status and, MS274
HealthTrust, 350
Help Seeking-Decision Making Model, in measuring mental health service utilization by Puerto Rican poor, 1142
Hemodialysis, Medicare cost of, 879

High-risk population, health insurance among, 598
High variation medical conditions, and regional and temporal differences in hospital utilization, 461
HIV infection. *See* Human immune deficiency virus-infected patients and Human immune deficiency virus infection
HMOs. *See* Health maintenance organizations
Home blood pressure monitoring, 855
Home care
for elderly after short-stay hospital treatment, 1004
feasibility of public-private financing plan for, 699
VA hospital-based, 1
Home health services, Medicare, area variation in use of, 43
Hospital-based home care, Veterans Affairs, 1
Hospital Corporation of America (HCA) hospitals, characteristics of, 360
Hospitalization, estimating days of due to nosocomial infections, 373
Hospitals
assessment of quality of care in, 428
characteristics of associated with death after surgery, 615
characteristics of divested HCA and AMI models, 360
closures of, urban and rural analysis, 174
divested versus nondivested, 360
health status measures in, MS57
high variation medical conditions in explaining regional and temporal utilization differences, 461
performance of for CABG surgery, 892
physician charges in, 630
predicting mortality in, 347
quality of care and costs in, 677
satisfaction with discharge plans of, 262
societal violence costs for, 453
state border crossing for admissions to, 1053
technical efficiency of across types, 781
utilization of and outcomes for elderly, 377
volume-outcome relationships and mortality in, 77
Human immune deficiency virus-infected patients
health service use among, 17
physicians' decision to perform clinical examination on, 199
Human immune deficiency virus infection
concern about among low-risk heterosexuals, 276
self-reporting versus medical record documentation of in women, 965
Hypertension, home blood pressure monitoring for, 855
Immunization, community pharmacists as advocates of, 503
Influenza vaccination, cost-effectiveness of cue to, 503
Informal care, for disabled and frail elderly, 149
Inpatient care
for alcoholism, 1097
APACHE-L in assessment of, 445
use of by HIV-infected patients, 17
Instrumental activities of daily living (IADL), validity of, MS96
Instrumental behavior, of physicians, 283
Instruments, for health status measurement, MS187
Insurance. *See* Health insurance
Intermittent positive pressure breathing, abandonment of, 718
Internship, mental workload during, 95
Intervention, pharmacist, 926
Knee replacement, total, health status outcome assessment after, MS240
Laboratories
quality control for cervical cytology smear interpretation, 1067
utilization of and test form design, 189
Laboratory tests
form design for and ordering by general practitioners in the Netherlands, 189
use of by general practitioners, 846
Lebanon, physician migration from, 208
Length of stay, satisfaction with discharge plan and, 262
Long-term care
feasibility of public-private financing plan for, 699
reimbursement for VA hospital-based home care in, 1
resource-use model for psychiatric facilities for, 872
Longitudinal survey, for persons with AIDS, 1059
Longitudinal Survey of Income and Program Participation data, 598
Mammography, utilization trends for in Washington state and British Columbia, 320
Management services, predicting work involved in, NS13
Marketing, of HMOs, 329
Medicaid, expansion of for preventive services to low-income children, 766
